

STATE OF IDAHO

DEPARTMENT OF AGRICULTURE

DIRK KEMPTHORNE

Governor

PATRICK A. TAKASUGI

Director

March 11, 2002

It is my pleasure to announce the upcoming **Idaho Agricultural Odor Technology Conference**. The conference will bring together technology developers and providers, engineering experts, and agricultural service providers from around the United States to showcase the technology available to reduce odors on livestock farms in Idaho. The Conference objectives are:

- To identify technologies that may be currently unknown or untried in Idaho; and
- To stimulate communications and technology transfer.

We are seeking knowledge on odor issues and are interested in all relevant technologies such as: Anaerobic/Methane Digestion, Aerobic Systems, Solids Separation, Lagoon or Feed Additives, Land Application, Lagoon Covers and Ozonation/Chemical treatment methods.

Because there is so much controversy surrounding this issue we are departing from the usual long lead time associated with a "call for papers" and are fast-tracking the Conference. The scheduled dates are May 20-23, 2002. The Conference will be held at the Filer Fairgrounds, 215 Fair Avenue, Filer, Idaho. Moderated presentations by technology providers and odor control companies will be conducted adjacent to a display and contact area.

You are invited to participate in this event. If you wish to make a presentation or set up a display table, please fill out the attached Call for Technologies. Please indicate on the attached sheet which of the above areas of interest your topic would best relate. In addition, you will need to submit a 1-page description of your presentation according to the attached guidelines. This description will be included in the Conference materials and will also be used by the organizing committee to develop the Conference Technical Sessions. All requests must be in to the Idaho State Department of Agriculture by April 1, 2002. You will be notified by April 19th if you have been selected to present.

We hope that you will join us in this most important and beneficial event.

Sincerely,

A handwritten signature in black ink, appearing to read "Patrick A. Takasugi", with a long horizontal line extending to the right.

Patrick A. Takasugi

Director

Idaho State Department of Agriculture

"IDAHO'S AGRICULTURAL ODOR TECHNOLOGY CONFERENCE"

FILER FAIRGROUNDS, FILER, IDAHO - MAY 20-23, 2002

CALL FOR TECHNOLOGIES

Please complete and return this form for each Technology or Product your company would like to present.

1. PROFILE INFORMATION

Contact Person: _____

Company: _____

Technology/Product Name: _____

Address: _____

Phone: (____) _____ **Fax:** (____) _____

Email: _____

Website: _____

2. TYPE OF TECHNOLOGY

Please check the group which best describes your product or technology

- | | |
|----------------------------------------------------|----------------------------------------|
| <input type="radio"/> Ozonation/Chemical Treatment | <input type="radio"/> Solid Separators |
| <input type="radio"/> Aerobic Systems | <input type="radio"/> Land Application |
| <input type="radio"/> Lagoon or Feed Additives | <input type="radio"/> Lagoon Cover |
| <input type="radio"/> Anaerobic/Methane Digestion | |

3. PRESENTATION OR DISPLAY PREFERENCE

I would like to give a:

- ☐ Presentation Only.
- ☐ Presentation and Technology/Company Display. \$350 display fee
- ☐ Technology/Company Display Only. \$350 display fee

If you would like to display a technology or your company, which would you prefer?

- ☐ Indoor Display (table and two chairs will be provided)
- ☐ Outdoor Display area
- ☐ Indoor and Outdoor Displays

Please make checks payable to the Idaho Odor Technology Conference and return this form by April 1, 2002. Send checks and this form to:

Marv Patten
Idaho State Department of Agriculture
2270 Old Penitentiary Road
P.O. Box 790
Boise, Idaho 83701-0790

For more information please contact Marv Patten at (208) 332-8550.

**** Display areas will be assigned based upon paid exhibit fees. Written cancellations after May 1, 2002 will be charged a \$25 cancellation fee. ****

"IDAHO'S AGRICULTURAL ODOR TECHNOLOGY CONFERENCE"

FILER FAIRGROUNDS, FILER, IDAHO - MAY 20-23, 2002

TECHNOLOGY DIRECTORY GUIDELINES

A Directory of technology or company descriptions is being prepared to highlight the technologies, products and services presented at the Conference. Each attendee will be given a copy of the Directory at registration. The directory will then serve as a resource for attendees during and after the Conference.

A 1-page description of each technology, product or service is required for companies interested in making a presentation or display at the Symposium.

Like the presentations that will be given at the Conference, technology descriptions should focus on the unique application of your technology, product or service to reducing odors from livestock operations in Idaho. Descriptions should focus on educating Idaho's livestock producers, technical service providers, state and federal agency personnel and the general public about your technology, product, service or company.

Companies should consider including the following elements in their descriptions:

- ✓ Name and type of technology
- ✓ Overview of technology
- ✓ Expected performance
- ✓ Schematic or flow diagrams of system processes
- ✓ Pictures
- ✓ List of existing systems (farm name and location)
- ✓ Analytical test results
- ✓ Unique items or approach of your technology
- ✓ Installation requirements
- ✓ Purchase cost
- ✓ Operating cost and maintenance requirements
- ✓ Company or supplier contact information

DESCRIPTION REQUIREMENTS:

LENGTH: 1-page, 8.5" x 11" (portrait)

MARGINS: Left = 1.0", Right = 0.5", Bottom = 0.5", Top = 0.5"

FORMATS: MS Word, MS Publisher or Adobe PDF

SUBMISSION REQUIREMENTS

Technology descriptions are required to be e-mail or mailed (on CD or 3.5" disk) to Dr. Ron Sheffield by April 1, 2002.

E-mail: rons@uidaho.edu

US Mail:

*Dr. Ron Sheffield
University of Idaho Research and
Extension Center
P.O. Box 1827
Twin Falls, ID 83303-1827*

Fed-Ex:

*Dr. Ron Sheffield
University of Idaho Research and
Extension Center
315 Falls Road
Twin Falls, ID 83303-1827*

For more information related to the Technology Directory, please contact Dr. Sheffield at (208) 736-3600.

“IDAHO’S AGRICULTURAL ODOR TECHNOLOGY CONFERENCE”

FILER FAIRGROUNDS, FILER, IDAHO - MAY 20-23, 2002

RECOMMENDATIONS FOR TECHNOLOGY PRESENTATIONS

Presentations at the Symposium should focus on the unique application of your technology, product or service to reducing odors from livestock operations in Idaho. Short presentations will be given following a brief overview and introduction by a session moderator. Following technology presentations, the moderator will facilitate questions from Conference attendees. The actual length of the presentations will be determined based on the number of companies that will be presenting. However, most presentations will be approximately 10-minutes in length.

Presentations should focus on educating Idaho’s livestock producers, technical service providers, state and federal agency personnel and the general public about your technology, product or service.

Speakers should consider including the following elements in their presentations:

- ✓ Overview of technology
- ✓ Expected performance
- ✓ Schematic or flow diagrams of system processes
- ✓ Presentation of Case Studies and working systems
- ✓ Odor evaluation results
- ✓ Nutrient and BOD/COD tests
- ✓ Unique items or approach of your technology
- ✓ Installation requirements
- ✓ Purchase cost
- ✓ Operating cost and maintenance requirements

Presentation formats:

- Overheads
- MS PowerPoint — *Please save your presentation to a CD or 3.5" disk. A computer with PowerPoint 2002 and projector will be provided. Speakers will need to turn in their presentation to the registration table the day before your presentation.*
